Gia

Gia combines bold elegance with tailored comfort. Its proportions are balanced, its volumes generous, and every detail is designed to embrace.

With COZY3 technology, an intelligent system featuring three independent motors, that adapt perfectly to your needs, providing unmatched support for legs, back, and head, along with exceptional lumbar relief. Each movement is smooth and precise: the relaxation naturally adapts to your body in a quiet, seamless way. Upholstered in refined materials, with soft textures and artisanal finishes.

Mechanisms: Versions 'Electric recliner comfort' are equipped with headrests featuring an electrically powered dual movement, liftable and reclining, adjustable lumbar support and recliner mechanism. All functions can be operated independently through a control panel located on armrest sides and on the sides of the seat for armless versions (PUL M5). The maximum height of the model with lifted headrests is 105cm, while the maximum depth of the fully extended recliner is 166cm.

Components: an integrated control panel included on all versions with an electric mechanism. The sofa is equipped with a "USB-C" port for connect and charge electronic devices. A reset button facilitates the return to the initial position.

Seat cushions with pocket springs encased in polyurethane foam, covered with 100% ecological polyester padding.

Standard feet: Shiny metal PM2158 in titanium finish. Some versions may be equipped with hidden feet with a supporting structural function.

Optional feet: PL2281 Rosewood coloured beech-wood feet, H.13.5cm.
