

Halo

A characteristic of Halo2 Sofa is its super soft surface which due to the softly padded upholstery makes relaxing on it a breeze. To further improve the seating comfort, the seating depth can be adjusted, ensuring the best possible level of comfort.

A mixture of the different seat depths is possible! A mixture for combinations with a corner element is possible by using the "combination corner".

Care Disclaimer

This model features high-quality chamber cushions. The filling material is held in chambers within the cushions to prevent it from shifting. The chambers and the filling material can stand out more or less depending on the type and thickness of the cover material. In order to prevent the filling material from bulging, these seat and back cushions should be plumped up, just like you do with pillows.
