## Lexi

Compact Lexi Recliner/Suite offers exceptional comfort, with a beautifully contoured back design, soft 'pillow' arms and full-width 'chaise' seating. Available in Small and Standard sizes throughout with additional Petite and Royale sizes of Electric Riser Recliner. Wide choice of fabrics.

The sofas and chairs are offered in small and standard sizes throughout the range. There is the option of a larger "Royale" size on all Recliners. A smaller "Petite" size, with a shallower seat and lower seat height is available on matching 'Lift & Rise' recliners.

For the ultimate in effortless reclining comfort choose the power recliner with either a neat handset or with a two-button switch on the outside arm. A rechargeable option is available for either. The manual recliner comes with a choice of finger-release catch or a lever handle release.

The 'Lift & Rise' Recliner is available in Petite, Small, Standard and Royale sizes. They are designed with full powerlift facility to assist sufferers of arthritis, rheumatism, MS, poor circulation and many other mobility restrictions. With the advantage of two-motor control, you can adjust the backrest and footrest independently to reach any desired reclining position, including a near-horizontal full sleeping position. (On a more basic single-motor recliner, the footrest and back move together, giving less choice of position.) Maximum recommended weight 159 kg (25 stones).

All recliner chairs and Lift and Rise chairs come with a five year mechanism guarantee for the personal use of the purchaser.
