

Mint High Back Office Chair

with arms

Stressless® Home Office chairs are designed to blend in with any style. The seat and back will follow your movements and offer good support. Lean back and the backrest will recline while the seat moves forward in a coordinated movement. A discrete flexibility in the seat offers good support and reduces the pressure on your lower thighs as you lean forward. The wheels on the base make it easy to move around and there is also a lever under the seat that allows you to adjust the seat height by up to 12cm.

Width:	72cm
Depth:	72cm
Height:	100cm
Height max:	112cm
Seat height:	45cm
Seat height max:	57cm
