

Hideaway™ Bed Base

Significant increase in storage capacity

Use the whole of the underside of your divan for storing items, whilst concealing them behind beautifully upholstered deep valances.

The HideAway™ divan base from Hypnos offers a significant increase in storage capacity compared with traditional drawer divans.

Robust design and construction cater for the storage of heavier and larger-sized items like suitcases and boxes, which are then hidden by the valances.

All storage areas are concealed behind beautifully upholstered deep valances, which provide an exquisitely tailored finish the full height of the divan base.

Available to order in a range of luxurious fabrics and colours.

Can be paired with any Hypnos mattress.

Available as 90cm, 135cm, 150cm or 180cm divan bases only.
