## Carter Riser Recliner

The Carter range has been ergonomically designed for optimum comfort and support. The soft, fibre-filled back includes lateral support cushions in addition to a supportive head roll.

The design features comfortable 'chaise' seating and smooth Light Oak or Dark Beech knuckles.

Choose the LUMBAR ADJUSTMENT option for individual comfort and support - Optional LUMBAR ADJUSTMENT is available at extra cost – choose this additional feature to enhance your comfort even further. Using the two extra buttons on the handset, you can increase and reduce the level of lumbar (lower back) support to reach the most comfortable position for you.

Available in Petite, Small and Standard sizes, the Royale size is designed for the larger build.

Petite electric riser recliner	74.5 x h 101 x 86 cm
Small electric riser recliner	74.5 x h 107 x 92.5 cm
Standard electric riser recliner	77 x h 109.5 x 92.5 cm
Royale electric riser recliner	83 x h 115 x 94cm

The sophisticated Dual Motor mechanism enables you to control the backrest and footrest independently to reach the exact position you want including a near-horizontal position (needs a 38cm (15") gap from the wall).

All recliner chairs and Lift and Rise chairs come with a five-year guarantee on all actions, frames, motors, handsets and all other electrical parts.

Single-use Emergency backup is fitted as standard and Multi-use Battery Backup is available at extra cost.

Supplied with castors for ease of movement Front castors lift away to ensure stability in raised positions. Glides are now available as an alternative to castors for solid flooring.

The 'Lift and Rise' Recliner is available in Petite, Small, Standard and Royale sizes. They are designed with a full power lift facility to assist sufferers of arthritis, rheumatism, MS, poor circulation and many other mobility restrictions. With the advantage of two-motor control, you can adjust the backrest and footrest independently to reach any desired reclining position, including a near-horizontal position. Maximum recommended weight 159 kg (25 stones).
