

Curve Sideboard

The front consists of moulded veneered doors – slightly curved in a calm and pleasing shape. This gives the sideboard an overall simplicity and elegance.

The sideboard stands on six slim trapeze-shaped legs in solid wood, which provides great stability and a light look and feel.

An interesting detail is the illusion of six smaller front doors, which are in fact three front doors, each with a fine carved line running across them. This lightens the look further and accentuates the craftsmanship and natural material.

The sideboard is equipped with great storing space, shelves, and a soft-close drawer.
