Fedora Relax Sofa

Fedora Relax is a modular sofa. Thanks to its recliner seats, which can be operated with a touch control that tilts the backrest and lifts and stretches the footrest, an almost completely reclined position is achieved for a feeling of absolute comfort. A further manually operated mechanism inside the backrest allows the headrest to be tilted to optimise TV or reading positions. 'Fedora Relax' is also available in both fixed and recliner armrest versions. Linear and corner elements, chaise-longues and also footstools make it even more possible to create and customise the perfect composition.

Seat padding – In ecological polyurethane foam covered with 100% polyester padding.
