

Ocean Table

The table legs are made of matt black lacquered steel.

Table tops are ceramic (ceramic plate 3 mm thick glued upon a 8 mm glass pane) available in 6 finishes: Marquina Marble, Silver, Titanium, Steel Dark, Argile or Matt Marble.

Ceramic is composed of a mixture of fine particles of clay, natural alumino-silicate minerals, silica and kaolin. The manufacturing processes consists of compression, rolling then baking in the oven at more than 1000°C these elements. The material thus obtained is very robust, resistant to abrasion, scratches, heat and deformation.
