6 reasons to choose wool

1. Pure wool is 100% natural, 100% renewable, 100% sustainable and 100% biodegradable
2. It is warm but cool too because it adapts to the weather.
3. Wool is flame retardant and will often self-extinguish. It produces less smoke and toxic fumes - making it a safer choice for the home.
4. Strong and long lasting - wool carpets and rugs takes lots of heavy wear and are known to look better for longer - quality always lasts.
5. Easy care and stain resistant - The protective waxy coating on wool fibres makes wool products resistant to staining and they also pick up less dust as wool is naturally anti - static.
6. Wool has hypoallergenic and anti-bacterial properties - it makes the air that we breathe cleaner and better.
