Ontario Sofa

The Ontario sofa has a large range of covers in great colours. High quality fabrics and fine leathers are used in order to create the perfect fitting sofa for your home and décor.

Manually or electrically adjustable headrest, relaxation mechanism with cardio balance. Heating available in the seat and lumbar areas. Choice of seating comfort - 2 seat heights. Spacious seats can be upholstered with DynaSpring Seating comfort.

DYNASPRING

Soft seating comfort with high-tech spring core made of 1,8mm thick wire

Seats upholstered with Dynaspring give an incomparably comfortable seating feeling thanks to sophisticated high-tech upholstery. The structure is the same as with Boxspring+, but Dynaspring components are more elastic and therefore give slightly more. The result is upholstery that gently encloses without sacrificing dimensional stability.

Size - width available to order in 10cm increments.

Every sofa is made as a unique piece and will exactly fit into your room and your life. To do this, we design each sofa and chair in increments of 10cm on our 3D sofa configurator – together with you in store.
