## BENEFITS

### Luxurious feel

For extra comfort, we've added a layer of soft high resilient polyurethane foam with fibres for a luxurious feel.

### 'Just right' headrest

Support your head and neck in the perfect position by fine-tuning the angle of the headrest with our unique adjustable system.

### 360° Swivel

Effortlessly rotate the chair in either direction, with the peace of mind of absolute stability, thanks to our smooth 360-degree swivel mechanism.

### Adjustable reclining backrest

Effortlessly recline and change the back angle to suit your needs, locking it into place at your preferred position with our smooth gas-lift reclining system.

### Lean back and stretch out

Relax without having to release the footstool thanks to the unique independent back and footrest system. A slight push on the arm, and the footrest unfolds smoothly. When you want to close the footrest just lean forward slightly, and effortlessly push the footrest down and in.

### Cold-Cure Foam Cushioning

For lasting comfort and durability, this space-age material, encasing the recliner steel frame and springs, is moulded to create a contoured silhouette, that holds its shape for the lifetime of the foam. Ensuring better ergonomic support for your body giving comfort that lasts.

### Choose your style

Get your perfect look by selecting from a choice of leather or fabric.
