

Adjustable Base

ELECTRIC ADJUSTABLE

dunlopillo®
NATURAL COMFORT SINCE 1929

The Dunlopillo fully adjustable electric bed is the ultimate partner in helping you rest, relax and unwind. The intuitive wireless remote control allows you to find your perfect comfort position and the cleverly designed sprung birch wood slats can themselves be adjusted to find the perfect lumbar tension that suits you and your partner's individual needs.

Wireless control

A Dunlopillo wireless remote control enables you and your partner to independently adjust each side of your Dunlopillo bed to ensure you achieve the very best comfort and a restful night's sleep. The controls have six different adjustable actions that allow you to position your head, back and legs in your ideal comfort position.

1. Head and foot end raised
2. Head and foot end lowered
3. Head end raised
4. Head end lowered
5. Foot end raised
6. Foot end lower

Comfort adjuster slats

The firmness of the slat system on the slatted base and adjustable electric bases can be controlled through the use of cleverly designed comfort adjusters positioned in the lumbar region of the system. Moving the adjusters to the outside edge of the system will create a firmer feel, whilst positioning them centrally will create a softer feel. Other comfort levels can be achieved by moving the adjuster between the soft and firm positions.

1. Slat holders
2. Tension adjuster
3. Fabric centre belt
