Nelson Knuckle Riser Recliner

The sophisticated Dual Motor mechanism enables you to control the backrest and footrest independently to reach the exact position you want including a near-horizontal full sleeping position (needs a 38cm (15") gap from the wall).

With a choice of Light or Dark Wood knuckles, this design features 'chaise' seating and a contoured, fibre-filled back for exceptional support and comfort.

Choose the HEAD TILT and/or LUMBAR ADJUSTMENT options for even more comfort and support.

Features & Dimensions

- Designed with full powerlift facility to assist sufferers of arthritis, rheumatism, MS, poor circulation and many other mobility restrictions.
- PERSONAL 5 YEAR GUARANTEE on all Recliner actions, frames, motors, handsets and all other electrical parts.
- Optional HEAD TILT and/or LUMBAR ADJUSTMENT for added comfort.
- Single-use Emergency Back-up fitted as standard and Multi-use Battery Back-up available at extra cost.
- Supplied with castors for ease of movement. Front castors lift away to ensure stability in raised positions. Glides now available as an alternative to castors for solid flooring.
- Supplied with removable back to make the task of delivering the Recliner into your home so much easier
- Maximum recommended weight 160kg (25 stone).
- Choice of Soft Covers or Leather.
